

Since 1996, we have trained more than 6,000 youth and community organizers, educators, and activists in radical political education and essential organizing skills. Training for Trainers builds upon SOUL's many years of training, curriculum, and facilitation experience, to develop the capacity of organizations to train their own staff, members, & leaders.

education is the property of no one. it belongs to the people as a whole. and if education is not given to the people, they will have to take it.
